Data Sheet

FUJITSU Storage ETERNUS DX8900 S3 Disk System

Enterprise Storage with leading scalability in capacity and performance

ETERNUS DX - Business-centric Storage

Combining leading performance architecture with automated quality of service management the Fujitsu Storage ETERNUS DX series aligns storage resources with business priorities, thus enabling higher system utilization and delivering increased system consolidation capabilities and a faster ROI. Unified scalable entry-level and midrange systems, seamless family concept enabling system upgrades and ETERNUS SF, the unified management suite across the product line, reduce operational and migration costs. ETERNUS SF provides enterprise-class functionalities in the entry and midrange class and allows flexible disaster recovery and business continuity concepts for the different model sizes, thus decreasing investment costs.

ETERNUS DX8900 S3

The ETERNUS DX8900 S3 disk storage system is purpose-built for biggest enterprises and ideal for the data management of business-critical core applications and the hyper-consolidation of large-scale data centers. ETERNUS DX8900 S3 provides non-disruptive capacity upgrades with up to 4608 disk drives, just by adding disks or complete drive enclosures. Performance of more than 4 million IOPS is provided by configurations based on 2 to 24 controllers and a maximum of 384 front-end ports for host connectivity. For simultaneous connection to different network types, FC, FCoE and iSCSI host interfaces can operate in mixed configurations.

Tiered storage optimization using a range of SAS, Nearline SAS and SSD drive options lowers the overall total cost of storage. The challenges of data exposure protection are addressed by self-encrypting drives (SED). Flexible and automated management across different quality of service profiles, using different drive types for each application scenario, ensures efficient assignment of system resources matched to the performance priorities of different applications. Highest availability and seamless business continuity is guaranteed by redundant interconnections to the storage array and internal redundant components and completed by transparent failover which ensures uninterrupted operation in case of an outage.
# Features & Benefits

ETERNUS DX8000 S3 Series

- The massively scalable Fujitsu Storage ETERNUS DX8000 S3 series, the flagship systems of the ETERNUS DX family are purpose-built for behemoth data centers which require outstanding storage performance and huge capacity paired with enterprise-class resiliency and 99.9999% availability. Its automated quality of service management features guarantee maximum system utilization and contribute to a fast ROI.

- It is the perfect solution when consolidating data in OLTP and large-scale databases, file services, business-critical applications and business analytics / big data – all into one system. It provides ample headroom for any demanding virtualization environments. Extensive high-availability and disaster recovery capabilities make ETERNUS DX8000 S3 the ideal storage systems for all business-critical data and fit perfectly in private and public cloud environments of large-scale enterprises and service providers.

</table>

**Note**

2.5-inch drives are available only for 2.5-inch drive enclosures and 3.5-inch drives are available only for 3.5-inch drive enclosures.

Max. no. of SSDs: unlimited

Mixed 2.5 inch/3.5 inch drive enclosures: Yes

Drive interface: Serial Attached SCSI (12 Gbit/s)

Back-end disk connectivity: 4 pair of four-lane x 12 Gbits Serial Attached SCSI buses (SAS3.0 wide) / Controller Enclosure

Max. no. of LUNs: 65,535

Max. LUN capacity: 128 TB

No. of snapshots - max.: 32,768

Max. no. of copy generations: 512

Eco-mode: Yes

**Performance**

Random access performance: 4M IOPS

**Performance management**

Automated Storage Tiering: Yes

Quality of Service: Yes

Automated QoS: Yes

Wide striping: Yes

**Note**

Automation options can be activated via ETERNUS SF Software

**Continuity management**

Storage Cluster: Yes
### Continuity management

- **Remote Copy functionality**: Synchronous and asynchronous
- **Note**: Options can be activated via ETERNUS SF Software

### Information security management

- **Data confidentiality**: Self-Encrypting Disk, Controller based Encryption, HTTPS (SSL), One Time Password, RADIUS, SSH
- **Data integrity**: Cache Protection, Data Block Guard, Disk Drive Patrol

### Availability management

- **Fast Recovery**: Yes
- **Non-disruptive maintenance**: Dedicated Hot Spare, Global Hot Spare
- **Non-disruptive firmware upgrade**: Yes
- **Redundancy**: RAID Controller, Power supply, Fan
- **Hot part replacement**: Yes

### Capacity management

- **Thin Provisioning**: Yes
- **RAID migration**: Yes
- **LUN online expansion w/o interruption**: Yes
- **Reporting function**: Yes
- **Hot part expansion**: Yes

### Management

- **Supported protocols**: SNMP (version1, 2C, 3), SMI-S 1.6
- **Administration**: Web-based graphical user interface, CLI (Command Line Interface), ETERNUS SF
- **Remote Support**: Event notification (E-mail / SNMP / Syslog), Remote maintenance

### Supported OS for ETERNUS SF

- **Operation Management Client**: Internet Explorer® 9, 10, 11, Firefox® ESR 17, 24, 31, 38, 45, 52, Microsoft Edge® 25, Chrome® 60, Chrome® 47, 50 (Android®), Safari 8, 9 (iOS)

### Supported configurations

- **All major host operating systems, servers and business applications**
- **Detailed support matrix**: www.fujitsu.com/global/support/products/computing/storage/disk/supported-configurations

### Installation specification

- **19” rackmount**: Yes
- **Service Area**: Front: 850 mm (33.5 inch) or more
- **Power voltage**: AC 200 - 240 V / AC 200 - 240 V
- **Power frequency**: 50 / 60 Hz
- **Power supply efficiency**: 92 % (80 PLUS gold)
- **Maximum Power Consumption**: AC 200 - 240 V: 97,520 W (99,710 VA)
- **Power phase**: Single
- **Frontend Enclosure**
- **Controller Enclosure**
- **2.5-inch Drive Enclosure**
- **3.5-inch Drive Enclosure**

Maximum Heat Generation (AC 200 - 240 V):

|                     | 2,020 kJ/h        | 4,330 kJ/h          | 1,600 kJ/h               | 1,300 kJ/h               |

Compliance:

Product safety: UL 60950-1, CSA 60950-1, EN 60950-1, IEC 60950-1

Electromagnetic Compatibility: CNS 13438, FCC Part-15 Subpart B Class A, ICES 003 Class A, EN55032, VCCI Class A, AS/NZS CISPR 32 class A

Electromagnetic Immunity: EN 55024

Approvals: CB, CE, C-Tick, FCC, EAC, GS, VCCI

Environmental compliance: RoHS compliant, WEEE compliant

Compliance notes: There is general compliance with the safety requirements of all European countries and North America. National approvals required in order to satisfy statutory regulations or for other reasons can be applied for on request.

Warranty:

Warranty period: 3 years

Warranty type: Onsite warranty

Warranty Terms & Conditions: www.fujitsu.com/support

Product Related Services - the perfect extension

Support Pack Options:

- Available in major business areas:
  9x5, Next Business Day Onsite Response Time
  9x5, 4h Onsite Response Time (depending on country)
  24x7, 4h Onsite Response Time (depending on country)

Recommended Service:

- 24x7, Onsite Response Time: 4h

Service Lifecycle:

5 years after end of product life

In addition to FUJITSU ETERNUS DX8900 S3, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

**Fujitsu Portfolio**
Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation’s reliability.

**More information**
