

# Data Sheet FUJITSU Storage ETERNUS LT60 S2 Tape System

The Scalable Mid-range Tape System for High Capacity Requirements

#### **ETERNUS LT Tape Storage**

The affordable ETERNUS LT tape systems offer impressive scalability and reliability. The highly automated and cost-efficient backup solution meets a wide range of demanding storage requirements including long-term archiving, disaster recovery and unattended backup for businesses of all sizes. The ETERNUS LT family provides data encryption offering enhanced security and compliance.

#### **ETERNUS LT60 S2**

The Fujitsu Storage ETERNUS LT60 S2 is a highly reliable and cost effective tape library ideal for midsized businesses or branch offices. It combines exceptional storage density and up to 1440 TB of compressed capacity in a compact 4U form factor. The pay-as-you-grow concept provides high investment protection. The ETERNUS LT60 S2 is certified for marketleading backup and archiving software. Highly automated, simple and remote operation enables usage without any demand for local expert skills. The standardized LTO technology features high capacity, high speed and low cost. The ETERNUS LT60 S2 provides hardwarebased data encryption offering enhanced security and compliance.

### Features & Benefits

Main Features	Benefits
High Density Tape Automation	
Ultra-compact product with up to 48 slots in four height units	Ensures user-friendly and secure backup and archiving
Up to four LTO drives with SAS or Fibre Channel interface	Minimizes administration efforts while saving time and money
	<ul> <li>SAS interface allows flexible storage architecture at relatively low cost</li> </ul>
	High data throughput reduces dramatically the backup time
Broad Scalability and Flexibility	
<ul> <li>Upgradeability from 24 to 36 or 48 slots via software license</li> <li>Partitioning via license key</li> </ul>	<ul> <li>Easy upgrade to the needed storage capacity provides high investment protection</li> </ul>
	Makes it easier to separate different LTO generations, avoids undesired incompatible media loads
	Build up to four independent libraries out of one system
Easy Management	
Remote management utility and user friendly operator panel	Automatism help to decrease the error rate of backup processes
■ Mail slot	Easy administration enables configuration and diagnostic
■ Barcode reader	Quick input and output of up to three cartridges
	Short initialization time thanks to slot barcodes, also with unoccupied data slots
Data Security	'
Encrypts data autonomously with hardware encryption through LTO	Minimizes performance impact for encryption
drive	■ Guarantees high data security
■ Supports WORM media	■ Fulfills compliance regulations

#### Fujitsu products, solutions & services

In addition to FUJITSU ETERNUS LT60 S2, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

#### Fujitsu Portfolio

Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.
